**FORCAM TO DISPLAY SAP ADAPTER  
AT SMB INNOVATION SUMMIT**

*Business By Design solution to demonstrate the power of FORCAM FORCE in SAP environment.*

FORCAM will debut its SAP adapter to support SAP Business By Design at the SMB Innovation Summit, hosted by SAP at the Caribe Royale Orlando hotel on June 18-20.

FORCAM already is known for its FORCAM FORCE, the industry standard for smart manufacturing and the world's first turnkey open manufacturing cloud platform solution for the Industrial Internet Things (IoT/IIoT). The SAP Adapter continues that open architecture approach by providing a plug-and-play solution for SAP Business By Design ERP systems and the SAP Enterprise suite. FORCAM's solution already has been SAP-certified.

“We look forward to demonstrating the power of FORCAM FORCE at the SMB Innovation Summit,” said FORCAM USA chief executive officer Manfred Heisen. “We will demonstrate how the combination of FORCAM FORCE and SAP add-on tools can assist with materials and production planning.”

FORCAM already has demonstrated its successful FORCAM FORCE solution across a broad range of industry leaders, including Audi, BorgWarner, Depuy Synthes, GKN Aerospace, KUKA Robots, WEIR Minerals, Lockheed Martin and many others. Today more than 100,000 manufacturing assets are monitored worldwide by FORCAM FORCE.

The FORCAM solutions will be at Booth 46 at the SAP SMB Innovation Summit.

**About FORCAM**

FORCAM provides the industry standard for smart manufacturing: Product suite FORCAM FORCE™ is the world's first turnkey and open, manufacturer-independent and expandable cloud platform solution for the Industrial Internet Things (IoT/IIoT). With the motto "PLUG & PERFORM", we present the new IT industry standard for Smart Manufacturing.

- Simply network machines and any ERP via FORCAM plug-ins and adapter
- Profit quickly via pre-installed FORCAM apps and with more than 70 reporting-functions
- Stay flexible with the first open app programming interface (OPEN API) for Smart Manufacturing.

We provide companies with all the information they need to control and optimize their production. The modular IIoT solution FORCAM FORCE™ is as flexible as the needs of our customers. With a multitude of production apps, we support you in making your processes more transparent and help you optimize your workflows. This creates the basis for continuous improvement and sustainable success, thereby securing your competitiveness. We grow together with you and support you on the path of digital transformation – from the machine connection to the complete IIoT solution.
