

# Higher Added Value With SAP Solutions: FORCAM ENISCO and All for One cooperate

- Bundled expertise for smooth end-to-end processes
- FORCAM ENISCO at Hannover Messe at the SAP stand (#HM25 | Hall 15 | Stand C19)

Böblingen/Filderstadt (Germany), April 2025 - Smart factory specialist FORCAM ENISCO from Böblingen has agreed a strategic partnership with [All for One Group SE](#). The All for One Group, based in Filderstadt, Baden-Württemberg, is the leading SAP partner in Central and Eastern Europe for both the transformation to SAP S/4HANA and SAP Cloud Business. Thanks to the combined strengths, end-to-end process landscapes are created that help companies to increase their added value.

The aim of the cooperation is to support manufacturing companies on their way to higher added value through customized and integrated IT architectures with SAP solutions - from the shop floor to the top floor. Customers benefit from a comprehensive service portfolio consisting of consulting, support and the implementation of solutions from the SAP universe, including managed services and cloud solutions.

Michael Zitz, CEO and Spokesman of the Management Board of All for One: “Companies need smooth process chains to ensure their competitiveness. The partnership with FORCAM ENISCO - with its strong focus on Manufacturing Execution Systems (MES) and SAP Digital Manufacturing - enables us to optimally complement our expertise for seamless end-to-end processes.”

Oliver Hoffmann, Managing Director of FORCAM ENISCO: “Data is the foundation of all digital processes - from the machine level to management tasks. With the combination of our [SAP Digital Manufacturing](#) expertise and All for One's in-depth SAP expertise, we offer companies fully integrated solutions that seamlessly incorporate their production processes into end-to-end process landscapes.”

## Two specialists for digital manufacturing and SAP transformation

Both companies are specialists in their fields: FORCAM ENISCO offers certified teams for the cloud-based shop floor solution SAP Digital Manufacturing. The smart factory expert also supplies the innovative “NextGen” solution AC4DC for machine data acquisition.

All for One is a leading international IT, consulting and service provider for SAP. Its almost 3,000 employees support more than 4,000 medium-sized customers, including many family businesses, from Germany, Austria, Poland and Switzerland in their sustainable business transformation and on their journey to the cloud.

## FORCAM ENISCO at the Hannover Messe 2025

At this year's [HANNOVER MESSE 2025](#) (HM25), smart factory specialist FORCAM ENISCO will be showing at SAP booth how supply chains can be optimized when real-time data from production is integrated into SAP solutions. A use case on the topic of “customized series production” will be presented. Motto: “Optimizing the entire supply chain through data-driven manufacturing.”

The production of a car steering wheel serves as an application example. The manufacturing of a car steering wheel is typical of customized series production - known as „[Repetitive Manufacturing](#)“ in the SAP world. It can be found in many sectors such as the automotive, electronics and mechanical engineering industries.
